This very rare and important pamphlet, which deals almost entirely with the Boundary question left in such an indeterminate state by the Treaty of 1783, was written by Nathaniel Atcheson. The Appendix, which covers pages 27-39, consists of extracts from a very long letter dated Canada, 14 January, 1813, relating to the conduct of the Government of the United States towards the Indian Tribes. The two Maps bear the following titles: 1. "A Map of Passamaquoddy Bay from actual survey." 2. "A Map of the Frontier of British North America and the United States." The latter describes the Boundary Line as fixed by the Treaty of 1783, which had never been respected by the American Government, and also shows the new line of demarcation as proposed to be established between the United States and the British North American Provinces, intended to secure the Independence of the Indians. The different claims and proposals are shown by coloured lines, that of the Western Territory of Ohio and Michigan, claimed by the United States, being coloured green.

The pamphlet usually met with is octavo size measuring approximately 8 by 5 inches. The above copy is large quarto measuring 12 by 9 inches. It is very rare in either form, but especially in the latter. We have only ever possessed one other copy.

**37 NORTH EASTERN BOUNDARY.** STUART (Andrew) Succinct Account of the Treaties and Negotiations between Great Britain and the United States of America, relating to the Boundary between the British Possessions of Lower Canada and New Brunswick, in North America, and United States of America. [London, 1838]. *Fine copy, complete with the 2 maps, half polished calf, t.e.g.* 8° \$85.00

This most important work was written by Andrew Stuart, whose name with the date of issue, appears on page 196. It was never published, and only issued for private circulation and official use. Confer Williamson's Bibliography of Maine, No. 5776, and N.Y. Public Library Bulletin, Vol 4, No. 12, page 402.

It has no regular title-page, all copies commencing with the leaf of Contents which is followed by the first page of text with caption title as given above. The N.Y. Public Library Bulletin collation calls for one map, but there should be two. They depict, by means of coloured lines, the alternative Boundaries as claimed by Great Britain and the United States under the Treaty of 1783, the line suggested by the King of Holland and rejected by the United States, and the lines as suggested in the further proposals.

The text includes the Treaty of 1783 and its construction; the Treaty of Amity and Commerce of 1794, with the proceedings in relation to the Boundary under the Fifth Article of that Treaty; the Treaty of Ghent, with the proceedings under the Fifth Article of that Treaty. Also reference to the King of the Netherlands, his award, and rejection of it by the United States; negotiations between the Government of Great Britain and that of the United States respecting the Boundary Question, with Considerations of the Boundary as settled by the Treaty of 1783; the negotiations between the United States and the States of Maine and Massachusetts, respecting a conventional line of Boundary to be substituted in place of that of the line arranged under the Treaty of 1783, on the supposition that the latter was impossible.

In 1817, the Agents in London of the North West Company of Montreal, published a "Narrative of Occurrences in the Indian Countries of North America" (*see infra*) from the period of the connection of Lord Selkirk with the Hudson's Bay Co., and his attempt to establish a Colony on the Red River, to that time. Following that publication a series of charges were preferred by his Lordship against the Partners and Servants of the North West Company, which charges were fully investigated in the Courts of Canada and a verdict of acquittal given in favour of the Company. In spite of this verdict the utterances of Lord Selkirk and his partizans continued, but the Representatives of the North West Company took no further notice until circumstances arose which compelled them to publish the above Narrative, written by Alexander M'Donell, a partner in the North West Company and the man against whom Lord Selkirk had levelled the most bitter of his denunciations.

Together 7 pieces in one volume, half morocco, g.t. Folio. \$85.00*

The first two pieces of this very important collection are the "Restraining Acts" passed in 1775, which limited the Trade and Commerce of the various Provinces therein recited. The third piece prohibited all Trade and Commerce with the Colonies and in addition repealed the Boston Port Act of 1774 and the above mentioned "Restraining Acts." The fourth item was passed in 1780 to repeal the "Prohibition Act" in order to allow trading to and from such places in North America as were in the possession of the British Forces.

The fifth piece is of great importance for the history of the Naval side of the Revolution. After reciting the "Act to prohibit all Trade and Intercourse" (No. 3 above) in which was enacted that "all Ships and Vessels of or belonging to the Inhabitants of the Colonies therein mentioned and all other Ships or Vessels which shall be found Trading in "any Port or Place of the said Colonies, &c. shall become forfeited to his Majesty, together with "their Cargoes, &c. as if the same were the Ships and Effects of open Enemies" it gives power to the Commissioners of the Admiralty to issue Commissions to Commanders of Vessels empowering them to capture ships belonging to the Rebellious Colonies. It states that all prizes should belong to the Captors, with certain exceptions, and that should any Commander of a Commissioned Ship agree with any Person, belonging to any taken Prize, for the ransom thereof he shall be deemed a Pirate and suffer accordingly. The Treasurer of the Navy is empowered to pay £5 for every man on board any ship or Ship of War taken from the Rebels.

The sixth Act above was passed to permit the proper Authorities to grant licence authorising Captors to carry their Prizes into any Port, Harbour, or Place in any of His Majesty's Dominions in America. By virtue of the Prohibition Act of 1776 (No. 3 above) no Captures should be carried into any of the American Colonies whilst the said Colonies or Plantations should continue in a State of Rebellion. But as since the passing of that Act many captures had been carried into the Harbour of New York, it was thought that it might be expedient to allow this at that place, or any other Port or Harbour, provided it were done under the proper Authority.

The final piece in the Collection enacted that as many Ships had been seized under the "Prohibition Act" and the Goods they contained were liable to very heavy duties to the hardship of the Captors, such Goods were to be warehoused at the Captors expense and only one half of the proper duty to be paid.

**217 [Galloway** (Joseph)] Letters to a Nobleman, on the Conduct of the War in the Middle Colonies. *London, 1779. Complete with plan but lacking the half-title, half calf.*

8° \$25.00

The rare First Edition. An attempt having been made, in the House of Commons, to conceal from the public the shameful failure of the American campaign by endeavouring to show the revolted Colonies were naturally too strong to be overcome, their inhabitants universally disaffected, and the forces sent to suppress them utterly inadequate, Galloway in this celebrated pamphlet strives to prove the reverse of these accusations. He maintains the forces sent to America were more than adequate, but the failure of the campaign was entirely due to the negligence and incompetence of the British commanders, particularly Sir William Howe.

The folding plan shows the operations of the British and Rebel Armies in the Campaign of 1777.

Wherefore and for a full manifestation of the earnest wish and desire of his Majesty and his Parliament to put an end to the Calamities of War," be it enacted that it shall and may be lawful for his Majesty to treat and conclude a Peace.

An important work, developed from original materials hitherto unpublished. The book describes the life of a many-sided man of considerable distinction in the latter years of King George II. and early years of George III. The History of the struggle with France for supremacy in North America is here dealt with from a new point of view, that of the personal experiences of one who, as Governor of Massachusetts, largely contributed to the result. Whilst in America, he formed an intimate friendship with Franklin which continued for more than 30 years, both holding similar views on the Colonies though working on Independent lines. After his return from America he entered Parliament, probably the best informed man of his time on Colonial affairs. Much inner light is shed on the steps leading up to the disputes with the Colonies.

Pownall finishes with a caution "to the statesmen and politicians of Great Britain against patching their politics with the only remnant rag of their folly which sticks to their backs, viz., An idea that an Union with America or some part of it, is practicable and politic."

The map of 1507 was originally issued with the well known geographical treatise "Cosmographiæ Introductio," in which America was first suggested as the name for the newly-discovered western continent; but although many copies of the book in various editions are preserved, no copy of the map was known until Professor Fischer was fortunate enough to discover one in the library of Wolfegg Castle in 1901, bound up in a volume with the map of 1516, also unknown. The outcome of this double discovery is the present sumptuous reproduction.
